Course Information

Course Title	Microsoft Copilot for Power Apps (C803)
Course Reference	C803
Training Provider	Tertiary Infotech Academy Pte Ltd (UEN 201200696W)
Duration	2 days · 7.5 instructional hours per day (15 hours)
Daily Timing	9:30 am – 5:30 pm (30-minute lunch)
Mode	Instructor-led, hands-on practical labs
Trainer	Dr. Alfred Ang

Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Enable Copilot in Power Apps and navigate Power Apps Studio ready to build.
- LO2: Prepare a Dataverse table with clear names and descriptions so Copilot can build accurate apps.
- LO3: Write effective prompts that get Copilot to build the app you actually want.
- LO4: Create a working canvas app from a single plain-language prompt.
- LO5: Refine an app's screens, controls and layouts by describing the changes to Copilot.
- LO6: Generate and explain Power Fx formulas with Copilot, and verify them against your data.
- LO7: Add an in-app Copilot chat so end users can query the app's data in natural language.
- LO8: Build a Power Automate flow with Copilot and call it from a canvas app.
- LO9: Automate approval and notification scenarios with Copilot-built flows.
- LO10: Share and govern AI-assisted apps responsibly.

Learning Reinforcement

- Every topic is followed by hands-on labs that learners complete on their own machine.
- Each lab ends with a 'Test it' verification step so learners can confirm their own progress.
- The trainer circulates during lab time to give individual feedback and unblock learners.
- Each topic closes with a recap mapped back to the course learning outcomes.

Course Schedule

Day 1 — Getting Copilot ready in Power Apps and building a canvas app with Copilot

Time	Duration	Topic / Activity
9:30–9:50	20 min	Welcome, course introduction, ground rules, and confirming Power Apps access and that Copilot is enabled for the labs

9:50–10:50	60 min	TOPIC 01 — Get Started with Copilot in Power Apps: what Copilot and the Power Platform are; licensing, requirements and enabling Copilot; a tour of Power Apps Studio; effective prompting for app building; preparing data with Dataverse (concepts + live demo)
10:50–11:50	60 min	Hands-on: Lab 1: Enable Copilot and Get Oriented in Power Apps Studio; Lab 2: Prepare Your Data with Dataverse for Copilot
11:50–13:00	70 min	Hands-on: Lab 3: Write Effective Prompts for App Building
13:00–13:30	30 min	Lunch break
13:30–14:30	60 min	TOPIC 02 — Build Canvas Apps with Copilot: creating an app from a prompt; refining screens, controls and layouts; generating and explaining Power Fx (concepts + live demo)
14:30–16:00	90 min	Hands-on: Lab 4: Create a Canvas App from a Prompt; Lab 5: Refine Screens, Controls and Layouts with Copilot
16:00–17:15	75 min	Hands-on: Lab 6: Generate and Explain Power Fx Formulas with Copilot
17:15–17:30	15 min	Day 1 recap and Q&A

Total scheduled time: 450 minutes (7.5 hours) excluding lunch — of which 450 minutes (7.5 hours) are instructional.

Day 2 — Extending the app with Copilot chat, automating it with Power Automate, and sharing and governing it

Time	Duration	Topic / Activity
9:30–9:45	15 min	Day 1 review and the plan for Day 2
9:45–10:15	30 min	TOPIC 02 (continued) — Adding an in-app Copilot chat so users can query the app's data in natural language (concepts + live demo)
10:15–11:15	60 min	Hands-on: Lab 7: Add an In-App Copilot Chat for Users
11:15–12:00	45 min	TOPIC 03 — Automate and Extend with Copilot: building Power Automate flows with Copilot; integrating flows with canvas apps; approval

		and notification scenarios; sharing and governing AI-assisted apps (concepts + live demo)
12:00–13:00	60 min	Hands-on: Lab 8: Build a Power Automate Flow with Copilot and Call It from the App
13:00–13:30	30 min	Lunch break
13:30–14:45	75 min	Hands-on: Lab 9: Automate Approval and Notification Scenarios
14:45–15:45	60 min	Hands-on: Lab 10: Share and Govern Your AI-Assisted App
15:45–17:00	75 min	Applied practice: rebuild the solution on your own non-confidential app idea — prompt, refine, automate and share it end to end, with trainer feedback
17:00–17:30	30 min	Course wrap-up, your Copilot-for-Power-Apps workflow and next steps

Total scheduled time: 450 minutes (7.5 hours) excluding lunch — of which 450 minutes (7.5 hours) are instructional.

Lab Reference (aligned to course topics)

Topic	Coverage	Labs
Topic 01: Get Started with Copilot in Power Apps	30%	Lab 1, Lab 2, Lab 3
Topic 02: Build Canvas Apps with Copilot	45%	Lab 4, Lab 5, Lab 6, Lab 7
Topic 03: Automate and Extend with Copilot	25%	Lab 8, Lab 9, Lab 10
